

STICK SKILLZ

CUSTOM TEAM WEAR CATALOGUE 2020/2021

We are avid ball hockey players and enthusiasts who were looking to give the sport what it deserves; more recognition and unity among the players who play the game. As players who compete in tournaments all over Ontario and playing in leagues, we were able to meet people from all over and had the pleasure to watch and compete against some of the best players in the game. We have grown to appreciate the unique skill that is required to play this game and we've seen some amazing things that these players can do with a ball and stick. Over the years we have barred witness to many great goals, saves, dangles and set ups. Yet most of these plays would become no more than a memory and a great story to tell your buddies later. No one was there to document or record the magic of the game as it transpired. So we decided to build a social platform where players from all over Canada could meet, discuss and share what was going on in their various leagues, different tournaments, and of course share the amazing stick skillz demonstrated in this game. We share our own videos and pictures as well as many other videos, pictures, and articles from the web that we find to be an impressive display of stick skillz, and overall great plays from the game of ball hockey. We strongly encourage players and fans to use our social platform to share videos, pictures and discuss the great plays they see and document on video. Our goal is to unite and grow a game that at times can be very segregated between leagues and players, and also a game that for some people is relatively unknown in their communities
